SUMMARY

Aspiring and diligent software developer with more than 3 years of experience in backends, program efficiency, frontend development and game design. I have a passion for learning and a keen interest in new technologies. I possess excellent analytical skills, meticulous planning skills and the ability to work effectively in team environments.
I demonstrate strong communication skills and a commitment to delivering high-quality software solutions.

PROFESSIONAL EXPERIENCE

InControl Simulation Solutions, Woerden, Utrecht   *January 2024–July 2024*
Intern Software Development

- I helped develop software applications using Pascal in Delphi, contributing to various projects that improved company operations and client solutions.

- I enhanced my technical skills and knowledge through mentorship and guidance from experienced industry developers, focusing on best practices and advanced programming techniques.

- I enhanced my technical skills and knowledge through mentorship and guidance from experienced industry developers with a large focus on best practices.

- I improved my communication skills within the workspace, understanding the importance of clear and effective communication for project success and team cohesion.

Oosterveen Media, Almere, Flevoland   *October 2020–Present*
Freelance Video Editor

- I started editing videos when I turned 16 as a hobby and have been doing content creation as a past time since I was 12. I landed my first big client in May of 2021 and registered my business in July 2021.

- Proficient in Premiere Pro and After Effects, I bring visions to life with creative precision. My skills span the entire Adobe Suite, guaranteeing top tier edits that consistently meet high standards.

- With an unwavering commitment to excellence, I have a sharp eye for detail. Whether it's colour grading or transitions, each frame is perfected to surpass client expectations.

- I've generated more than 200 million views, demonstrating my knack for capturing and retaining audience attention.
